..... Building Services

Regan Construction services expertise in building is based upon 20 years of experience in the building industry.

Our construction services expertise includes loft conversions, extensions and renovations and conservatories.

Regan construction have plumbers, carpenters, electricians and decorators all working under one roof and can provide a complete turn key project management solution to your building requirements. We can also engage known and trusted architects, interior designers and structural engineers on your behalf.

Regan Construction services have skilled craftsmen capable of carrying out period restorations and top end finishes. Including restoring damaged cornices and highly detailed plaster work, intricate mosaic tiling, complex bespoke carpentry and both decorative and lighting special effects. We have full project management experience and give guaranteed start dates and realistic completion dates to our clients.

Regan Construction are able to have onsite bathroom design service available tailor made to suit you specific requirements as a specialty we offer.

We can work with marble, granite, sandstone and mosaic tiles to create exciting and exquisitely finished products.

Testimonials from satisfied Clients

Regan Construction prides itself to be at the pinnacle of excellent customer service and so we have listed just a few of the numerous grateful responses sent by some of our satisfied customers who are only too willing to let the rest of the Construction industry know of our good work.
