## .....Maintenance Services.....

All building or facilities have to control their electrical, plumbing and maintenance costs! Yet at the same time they need to prevent building or facility dilapidation but at the same time complying with legal regulations and restrictions that ensure that Health and Safety issues are paramount for occupants, employees, services personnel and visitors. Maintenance needs to be current on structures like facias and gutters as well as necessary and important roof repairs.

Regan Construction also carry out maintenance checks on behalf of customers to save them money on expensive repairs.
